

MOHAMED ZARANDAH

Full-Stack Developer · AI Automation Engineer · Technical Generalist

226-503-6430 · London, ON · mohammedzrn13@gmail.com · linkedin.com/in/mohamed-zarandah-769208220 · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Builds production-grade web applications and AI automation pipelines as a daily practice. Genuine hands-on fluency with Claude Code, MCP servers, n8n iPaaS workflows, and RAG-based AI systems, paired with a full-stack development foundation (React, Node.js, REST APIs) and a structured QA mindset from a dedicated Software Testing co-op. Translates technical depth into clear communication across any audience. Canadian, remote-ready, authorized to work across Canada.

WORK EXPERIENCE

AI & Automation Workflow Engineer

2024 – Present

Independent / Freelance · London, ON

- Deployed a Notion-to-Discord task automation bot for a client team of 7. Monitors multiple Notion databases at a 10 s poll interval, routes 5 notification types across 7 slash commands, runs hourly overdue checks plus a daily team digest, auto-deploys to Railway on every git push. [Live](#) [GitHub](#)
- Built an Instagram Reel trend intelligence bot polling up to 10 DM threads on a 45 s cycle. Runs Claude API analysis with prompt caching across 9 data points per reel over 5 content types, and writes results to 6 SQLite tables across 7 creator accounts. [GitHub](#)
- Self-hosted n8n AI pipelines via Docker and a RAG chatbot with Ollama (Llama 3.2) for local LLM inference with document retrieval. Configured Claude MCP servers connecting Claude to VSCode and external APIs for DAP-style agentic workflows. Also built a B2B recruitment outreach engine using lemlist and Hunter.io with multi-touch sequences, lead sourcing, and partner qualification. [GitHub](#)

Freelance Full-Stack Developer

Feb – May 2024

Event Simplified · London, ON

- Built a 5-page responsive website for an AI-powered event planning SaaS startup using HTML5, SCSS, and JavaScript. Ran discovery, scoped features, demoed each milestone, and shipped on schedule. Delivered to a founding team led by a former Amazon product leader with 8 patents and \$100M+ in shipped products. [GitHub](#)

Customer Service Representative (Cross-Trained)

2023 – Present

Real Canadian Superstore · London, ON

- Handle 40–60+ interactions per shift across three departments under sustained pressure; developed strong objection navigation and cross-stakeholder communication transferable to any technical client or sales environment.

Volunteer Web Designer & Brand Identity

Aug 2024 – Present

Freelance Client Projects · London, ON

- Designed a cinematic studio logo and brand identity; built responsive multi-page websites for startup clients from brief through handoff.

TECHNICAL SKILLS

AI & Claude Tooling: Claude Code, MCP servers, DAP (Duo Agentic Platform), Docker AI pipelines

iPaaS & Automation: n8n, lemlist, Hunter.io, HTTP integrations, scheduled pipelines

Data: SQL, MySQL, relational modeling, Firebase Firestore, API data flows

Design & Media: Figma, Adobe XD, Cinema 4D, Adobe Creative Suite (UI/UX, 3D, motion)

Frontend: React, HTML5, CSS3, JavaScript (ES6+), Sass, component-based UI

Backend: Node.js, Express.js, RESTful APIs, Web Services (SOAP/REST)

Cloud & Infra: Google Cloud Functions, Firebase, AWS fundamentals, Docker

Dev Practice: Git, GitHub, GitLab, Agile/Scrum, structured QA, change management

PROJECTS

Fanshawe Student Prototype Showcase: WebView

Oct 2024

Fanshawe College · London, ON

- Built an interactive WebView platform with embedded 3D models, video demos, live chat, virtual business card exchange, and panel discussion tools for industry networking.

MHZ Earbuds: 3D Modeling & Product Website

Oct – Nov 2023

Fanshawe College · London, ON

- Cinema 4D product renders and animation sequences. Interactive site with scroll-based image sequences and AR 3D model viewing. [GitHub](#)

EDUCATION

Software & Info Systems Testing (Co-op) Grad: Jan 2026

Fanshawe College · London, ON

SDLC, SQL, structured testing, defect lifecycle, regression, TDD

Diploma in Interactive Media Design Grad: Apr 2024

Fanshawe College · London, ON

Web Dev, UX/UI, 3D Modeling, Digital Marketing, Project Management
